

Create user

/api/v1/users/register.

```
{  
  "username": "john",  
  "password": "123",  
  "role": "SELLER",  
  "address": {  
    "street": "125 Main St",  
    "city": "Springfield",  
    "state": "IL",  
    "zip": "62704",  
    "country": "USA"  
  }  
}
```

Get user data by id

/api/v1/users/me?id=3

Create category

/api/v1/categories

```
{  
  "name": "toy"  
}
```

Get categoryies

/api/v1/categories

Create product by category id and userid(seller)

/api/v1/products?categoryId=2&userId=3

```
{  
  "description": "An amazing computer",  
  "quantity": 500,  
  "price": 229.99  
}
```

Get all products(Dto)

/api/v1/products

Get product detail by product id

/api/v1/products/{id}

Update quantity of a product by product id

/api/v1/products?id=2&quantity=80
